

HYDRAFACIAL

POST CARE

- Do not wash the treated area for at least 6 hours post treatment.
- No chemical peels, microdermabrasion for 1 week after the procedure. It is normal that your skin might be red and swollen post treatment. You can apply cold compresses to the treated area. Avoid excessive sun exposure, and use a broad spectrum SPF 40 for at least 7 - 5 days following your treatment.
- Avoid Heat (hot showers, sauna, and intense cardio) for 24 hours after the procedure.
- It is suggested to not wear make-up for at least 24 hours. Botox / Fillers Injections can be done in 24 hours.
- Laser hair removal, waxing and depilatories can be done after minimum 1 week.
- Topical prescriptive medications and over the counter acne medications can be resumed in 48 hours.
